Ecommerce solutions provider Zoovy announced a strategic integration with fulfillment service Shipwire. The new integration allows Zoovy's merchants to store merchandise and fulfill orders from multiple warehouses throughout the US and Canada.

Shipwire is connected to the Zoovy checkout and order solution, sending orders directly to the Shipwire Store-Sell-Ship platform. When customers order from Zoovy stores, Shipwire picks, packs and ships the products.

Senior Director of Marketing and Business Development for Shipwire Nate Gilmore said, "Shipwire and Zoovy both enable merchants to focus on growing their business by eliminating the day-to-day hassles of running an Internet retail business. Working together we expect to help merchants streamline their Internet and fulfillment operations to more easily enter, and be successful in, domestic and international markets."
